

WHAT IS A GRAND PLAN?

A strategic roadmap for protecting your school, built around your budget, your needs, your community, and the people who count on you every day.

Most schools can't upgrade everything at once.

A GRAND PLAN gives you a clearer picture of where you want to be and when you want to be there, so every dollar is invested with purpose, priority, and long-term success in mind.

THE 4-STEP GRAND PLAN FRAMEWORK

1

Audit your existing equipment

- Inventory all of your equipment and devices in each building
- List the installation date and manufacturer's recommended end of life date
- Note the condition of the equipment and any issues with the systems

2

Build your GRAND PLAN

- Design your ideal security plan
- Calculate actual costs with vendor quotes
- Prioritize by greatest need and impact

3

Plan your path forward

- Align your school's budget before pursuing grant and funding opportunities
- Determine the best time to schedule improvements to minimize disruptions
- Implement your investment in phases

4

Reassess and strengthen annually

- Evaluate the value of service contracts and support options
- Identify annual training needs for staff and school leaders
- Review your GRAND PLAN each year to adjust to new situations

Self-Check: Does your school have a GRAND PLAN?

- We have a full inventory of our current security equipment.
- Our security systems can communicate with each other.
- We know which areas of our campus are highest risk.
- We have a phased plan for upgrades tied to our budget cycle.
- We review our security position with our team at least once a year.

**Not sure where to start? WNS Security will help develop your GRAND PLAN with a free evaluation, assessment, and quote.

PRIORITIZE YOUR NEXT INVESTMENT IN

School security systems

A guide for school technology and building
administrators and leaders

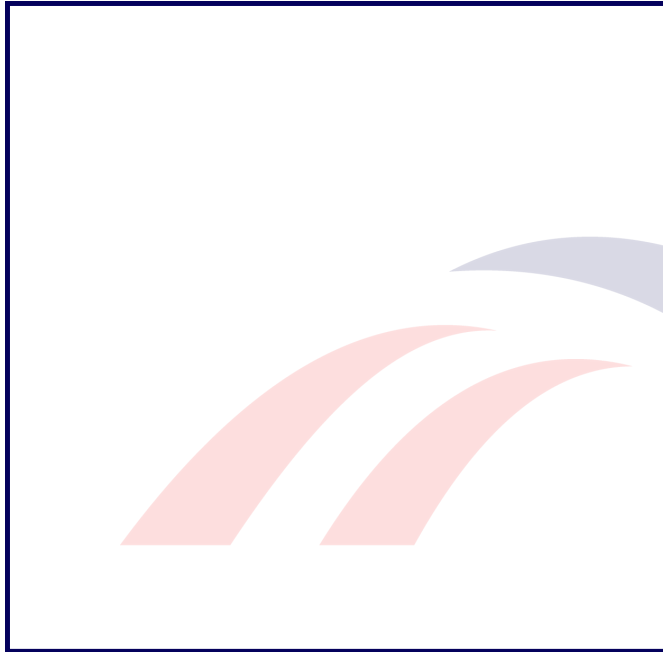

2

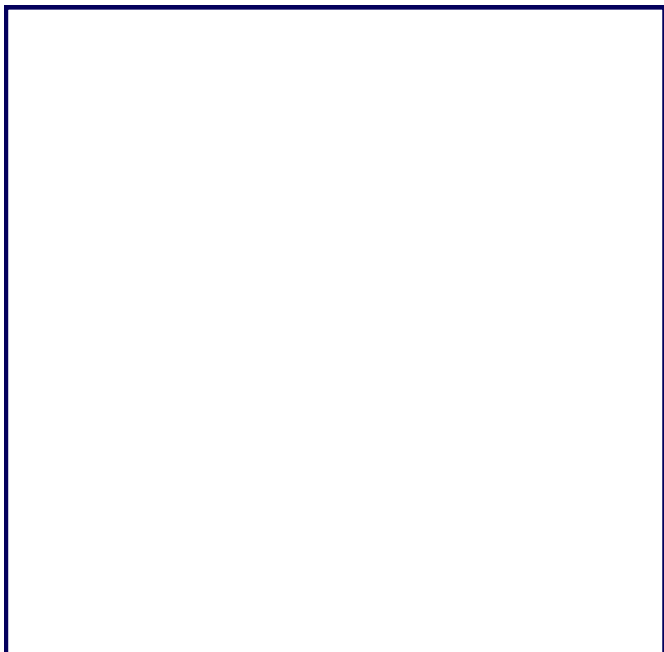

Build your GRAND PLAN

OUTLINE YOUR IDEAL SETUP

Visibility: Know what is happening.

Connectivity: Keep all systems communicating.

Control: Manage who has access.

Integration: Make everything work together.

3

Plan your path forward

MOVE FROM IDEAS TO IMPLEMENTATION WITH FUNDING, SCHEDULING, AND PHASED PLANNING

Funding sources and availability

Budget cycle timing: _____

Funding sources to explore: _____

Potential grant opportunities: _____

Planning schedule

SUMMER	FALL	WINTER	SPRING
--------	------	--------	--------

Phase 1: Most critical

Phase 2: Very important

Phase 3: Process completion

4

Reassess and strengthen annually

IDENTIFY VENDOR SUPPORT AND TRAINING CONTACTS

SYSTEM	CONTACT DETAILS	SERVICE CONTRACT?	RENEWAL DATE	TRAINING AVAILABLE?

DETAILS ABOUT TRAINING NEEDED

ANNUAL REVIEW CHECKLIST

- Review new risks and concerns
- Identify end of life equipment or gaps
- Update priorities and phased plans
- Review funding opportunities for upcoming projects

What has changed since your last review?

Ready to build your GRAND PLAN?

WNS Security helps schools assess current systems, identify risks, and build a phased security roadmap backed by real priorities, real budgets, and real-world planning. It starts with a no-cost security evaluation and quote.
