

# AI Literacy & Readiness Program

A partnership between AdvanceKentucky (an initiative of the Kentucky Science and Technology Corporation, KSTC) and Kentucky school districts to build educator AI readiness, integrate AI into instruction, strengthen literacy through AI-enabled strategies, and guide school-based AI goals and policy.

## Program Goals

- 1. Increase Educator AI Readiness** — Foundational AI literacy training measured by pre- and post-program assessments.
- 2. Integrate AI Into Instruction** — Teachers develop and implement AI-integrated lessons in their content areas.
- 3. Strengthen Literacy Through AI** — Classroom-tested AI-enabled literacy strategies — feedback, scaffolding, differentiation.
- 4. Build School-Based AI Leadership** — Cross-role teams set school AI goals through the SCRIPT planning process.
- 5. Develop AI Policy & Guidance** — Districts draft AI use, data privacy, and instructional policy frameworks.
- 6. Evaluate Program Impact** — AdvanceKentucky delivers a summary report on outcomes and next steps.

## Program Components & Commitments

| AdvanceKentucky Provides                                                                                                                                                                                                                                                                                                                          | Your District Provides                                                                                                                                                                                                                                                                                                                                        |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <ul style="list-style-type: none"><li>• Two-day strategic planning workshop</li><li>• Introduction to AI workshops for faculty (registration fees covered)</li><li>• Classroom coaching and instructional support</li><li>• Specialized AI professional development tracks</li><li>• Pre/post data analysis and a summary impact report</li></ul> | <ul style="list-style-type: none"><li>• Staff participation in scheduled workshops and PD</li><li>• Team roster and participation in the SCRIPT workshop</li><li>• Classroom access for coaching and observation visits</li><li>• Support for AI-integrated instructional strategies</li><li>• Participation in data collection; staff travel costs</li></ul> |

Program Duration: One full academic year, from date of signature through the end of the school year — renewable by mutual agreement.
