Recent Changes & Common Data Entry Errors

Understanding Resident Codes

Resident Code	Use For
X	Students in Residential Treatment Centers receiving care for mental health or behavioral issues
XX	Students in a Juvenile Detention Center (JDC) being held for a crime or awaiting court decisions

Understanding Resident Codes

Resident Code	Use For
S	Students in Special Education attending a service provider under a tuition agreement.  This resident code requires an entry in the <i>Name of Provider</i> field on the <i>School Age Student</i> screen.
T	Students in Regular Education attending a treatment facility under a tuition agreement.  This resident code requires an entry in the <i>Facility Name</i> field on the <i>SIS/Misc Items</i> screen.

Understanding Resident Codes

Resident Code	Use For
2	Students from a Home School environment who participate in a sports program at the Resident district.
4	Students from a Home School or Private school environment who are enrolled in one or more academic course at the district.  COM-18-009 Dated 08/14/2017

Note: Remember to enter ADM Part-Time Percentages as stated in Commissioner’s Memo DIR-00-016 when applicable.

Understanding Resident Codes

Resident Code	Use For
00	According to Act 189 of 2023, if a parent or legal guardian moves to a different school district, their child can continue attending their current (nonresident) school through graduation. • This right remains in place regardless of the student's new address. • Parents or guardians must provide transportation to and from school.

SPED Students from Home/Private School

When **special education students** from **home school** or **private school** enroll in their **resident school district**, they should be entered with the following:

- **Resident Code:** R – This shows they live in the district
- **ADM Part-Time Percentage:** Percentage is less than 1.0 (DIR-00-016)
- **Educational Placement:** PP – Parentally Placed in Private School (includes homeschool students with an IEP)
- **Entry Code:**
 - **HS** – If they came from a home school OR
 - **P** – If they came from a private school

Why Does This Matter:

When **Educational Placement** is coded correctly for these students, it helps ensure they are excluded from the state assessment file. Using these **Entry Codes** helps show evidence that these students do not need to take state assessments.

Entry Codes

Entry Codes will be used to identify where students were enrolled prior to enrolling in your district.

Location:

Registration > Entry & Reports >

Student Demographic > Entry/Withdrawal

The screenshot shows a web form titled "Enrollment" with several fields. The "Entry Code*" field is highlighted with a red rectangle. The fields and their values are:

Enrollment	
School Year*	2026-27
Building*	1 - Building 1
Calendar*	R - 2025-26 School Year
Grade*	KF - Kindergarten Full Day
Entry Type*	C - Current Year
Entry Code*	R - First Enroll/Year
Entry Date*	07/01/2025

What Districts Need to Know:

- For new students, select the Entry Code that reflects where the student came from (*e.g., another Arkansas public school, out of state, private school, home school, etc.*). If no other code applies, use R.
- For returning students enrolled at the end of the prior year, use R.
- If a student leaves and returns during the year, continue identifying where the student came from; if no other code applies, use AW.

District/School Address Changes

Address changes for the district and/or school require that an LEA Reconfiguration request be submitted through LEA Insights. Once approved, the address(es) would be updated in eSchool.

Location:

District Mailing Address – Administration
> General Setup > District > District

School Mailing Address – Administration
> Registration Setup > Building >
Building Definition

What Districts Need to Know:

- Collected in Cycles 1-9.

Academic and Other Enrichment Programs

On the **School Demographics** screen, use the ***Academic Programs*** and ***Other Enrichment Programs*** fields to highlight programs, opportunities, and supports offered at the school that are beyond statutory or accountability requirements but provide meaningful value to students and families.

Location:

Administration > Registration Setup >
Building District Defined >

Other Enrichment Programs

What Districts Need to Know:

Information entered will be publicly displayed on My School Info (MSI) under each school's School Information tab. This content is visible to parents, community members, and other stakeholders.

The number of minutes students are engaged in instructional activities (Rules: 6 CAR § 130-240).

- Generally, excludes lunch, recess, and nonacademic or extracurricular activities.
- These periods may be included if they are part of a student's IEP as special education instruction.
- Under Act 641 of 2019, recess may count as instructional time if the school follows an elementary model (grades KF-04, and may include grades 05-06).

Location:

*Calendar (Instructional Time) –
Administration > Registration
Setup > Calendars > Calendar*

*Minutes Per Day – Administration >
Registration Setup > Building District
Defined > School Demographics*

What Districts Need to Know:

Lunch should NOT be included in instructional time.

Previously, the state assigned generic SSNs to Digital Learning Teachers. These generic SSNs are no longer permitted for use.

See COM-25-011, Dated 08/27/2024.

What Districts Need to Know:

Districts must collect the following information from the provider for each teacher of record:

- Legal name
- Last 4 digits of SSN (with leading zeros)
- Date of birth
- Case ID

IMPORTANT

Concurrent Credit Teachers

The generic staff record of Concurrent Credit with an SSN of 999999999 is used to code a person teaching courses taken at a college or university.

Reminder:

For concurrent credit courses in eSchool, be sure to address the Master Schedule's ***College Credit***, ***College Credit Hours*** and ***Institution Issuing Credit*** fields located on the SIS Course Data screen (*Scheduling > Courses > Course Sections > Course SIS Data*).

College Credit	☐
College Credit Hours	
Institution Issuing Credit	

IMPORTANT

Do NOT Recycle Staff Records

Recycling staff records can result in the creation of a new State ID, which impacts staff history, reporting accuracy, and data integrity.

- Do not change an existing staff record to reflect a different person. Everyone must have their own unique staff record.
- Do not assign the same SSN to multiple individuals. This can lead to serious data mismatches.

⚠ A true name change (e.g., due to marriage) is acceptable. In such cases, update the name fields only—do not repurpose or alter the rest of the Staff Information panel.
