In Blue Prince, the "black key" is often associated with the Treasure Trove's secret, which involves finding the "Mora Jai Riddle" in the Unknown Room. To get the key, you need to draft an observatory, ensure the Southern Cross is a constellation, enter the Unknown Room, and stand there until 1:30 PM. The tomb will then rise from the floor, revealing the black key.

Portland bound!

I'm headed to Portland, OR for July to beat the summer heat in the south. Do you live in or near Portland? Anything I should definitely do or see while I'm there? Want to hang out? I hope I packed enough hoodies and boots.

Public MCP servers

You can make an MCP server available on a web server. The server runs as a web service, listening at an HTTP endpoint. Great with serverless setups.

My first boyfriend helped me round out my Nine Inch Nails Collection.

"Rich people piss me off," is a distortion of Cartman's phrase, "Poor people piss me off," from an episode of *South Park*.

GET AGENTIC WEB READY

ASK YOURSELF

- Are my users **using agents**?
- **Does it benefit us** to make some things easier for a user to do via an agent?

ADOPT AND INVESTIGATE ACCORDINGLY

- **Adopt** WebMCP
- **Deploy** an MCP server
- **Consider** an MCP App
- **Investigate** A2UI

TEAM UP

- **Frontend Team** can help implement WebMCP
- **API/backend Team** can help decide what goes into an MCP server
- **Design System Team** can provide UI atoms for MCP Apps

The web becomes what we build.

*We are all allies now, building the
Agentic Web.*
