# UV RESIN

2

YOU'VE GOT A PICTURE IN A FRAME WITH GLASS IN IT. IT IS LAYING FACE DOWN ON THE TABLE. THE MOLD IS THE "FRAME".

CHOOSE YOUR MOLD. PLACE IT FLAT ON THE TABLE. ADD YOUR "GLASS" LAYER OF RESIN. COOK IT FOR 60 SECONDS!

## PHOTOS

## DRY STUFF

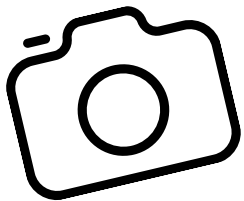

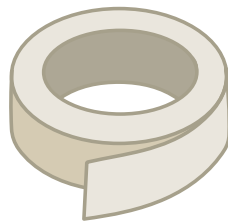

PHOTO NEEDS TO BE SMALLER THAN THE MOLD WITH ROOM FOR A 1MM TAPE "FRAME" AROUND IT

AKA FLOWERS, PHOTOS

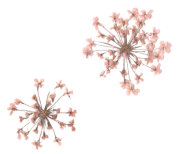

POUR ANOTHER LAYER OF RESIN INTO THE MOLD.

QUICKIE - APPLY CLEAR TAPE TO BOTH SIDES. USE FIRM TOOL TO PRESS EDGES TOGETHER. TRIM TO ONE MM AROUND.

ADD THE FLOWERS ETC FACE DOWN. TRY TO AVOID AIR BUBBLES.

COOK FOR 60 SECONDS!

LONGER - USE MOD PODGE TO PAINT BOTH SIDES AND ALLOW TO DRY 24H

IF NEEDED ADD A VERY THIN LAYER TO COVER THE BACK OF THE FLOWERS ETC

## FINAL STEP

COOK THE ITEM FROM THE BACK FOR AT LEAST 2 MINUTES. THEN RELEASE FROM MOLD.
