

# Supporting the *Whole* Person: SEXUALITY IS MORE THAN SEX

Adapted from a diagram created by Planned Parenthood

- Sexuality is more than intercourse or sex.
- It's about intimacy, connection and belonging.
- It's about relationships. Friendships and sexual.
- It's about how we feel about being the gender we are and our sexual orientation.
- It's about how we feel about others and ourselves.
- It's about sexual expression and behaviors.
- It's the total of who we are, what we believe, what we feel and how we respond.

 Seeing beyond disability.
