DNS abuse: ccTLD Community Mailing List

DASC-mailing-contacts@icann.org

<https://www.icann.org/en/ccnso/resources/email-lists-and-newsletters>

About the list

The [ccNSO DNS Abuse Community Mailing and Contact List](#) is used to share and receive DNS Abuse related information, ranging from updates of the information repository (library) maintained by the DNS Abuse Standing Committee (DASC) to information on practices, education and tips and events.

The mailing list also serves as a contact repository. Subscribers receive a quarterly automatically generated email containing the Mailing and Contact List, which includes the designated abuse contacts for each subscribed ccTLD, along with their phone numbers and email addresses, as permitted under applicable privacy laws.

Who can join

The DNS Abuse Community Mailing and Contact List is open to individuals from ccTLDs interested in DNS Abuse, with up to four contacts per ccTLD. It also includes observers from Regional ccTLD Organizations, ccNSO Council members, the ccNSO Secretariat, and ccNSO-appointed ICANN Board members during their terms.

Managing subscriptions

To subscribe, please use the [subscription template](#) and send it to ccnsossecretariat@icann.org. Important: Your subscription request email must come from the administrative contact address you have currently registered in the [IANA database](#).

DNS Abuse Library

<https://www.icann.org/en/ccnso/resources/libraries>

The [ccNSO DNS Abuse Library](#) is a useful resource on DNS Abuse-related topics for ccTLDs. You can do both searches and suggestions for content in the library. This library is maintained by the ccNSO DNS Abuse Standing Committee (DASC).

To suggest new content for the DASC Library, use this [template](#) and send it to dasc-repository-submissions@icann.org
