Harbor Satellite (Sandbox)

- Its a stateless, secretless, zero-trust edge registry, with very minimal footprint
- Please come to Satellite Talk
Kubernetes on Edge Day (Emerald Room) - **12:25 PM**

Harbor CLI 0 CVE

KubeCon

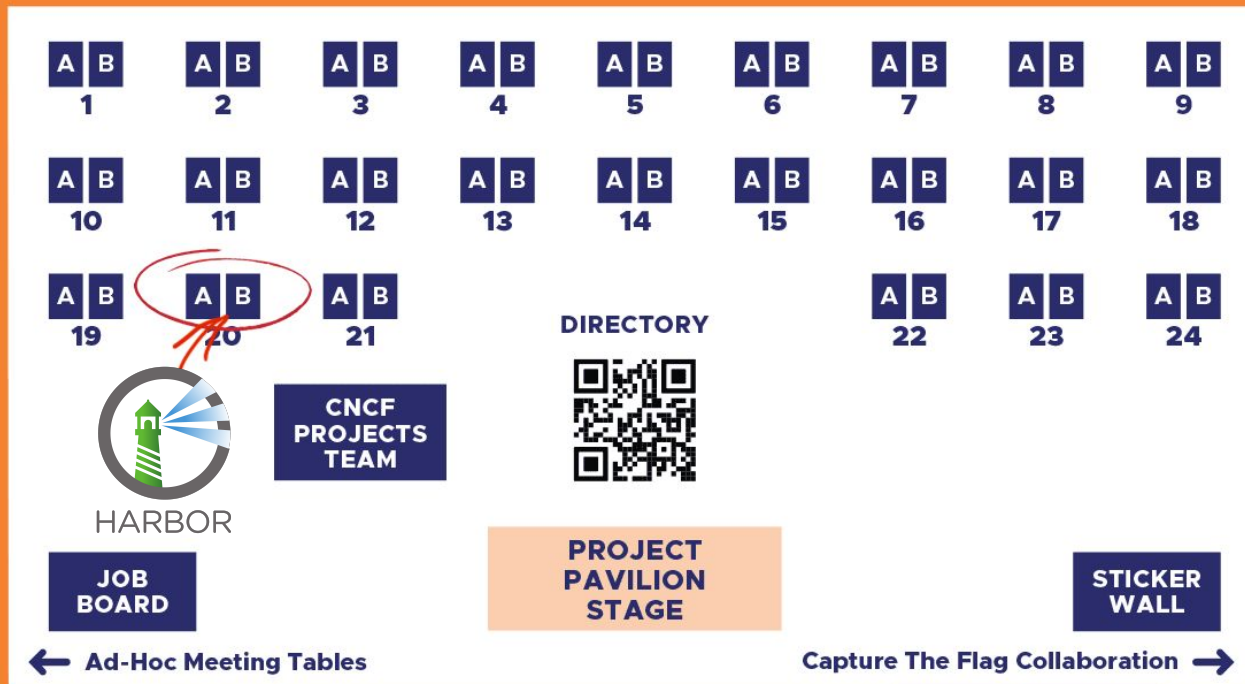

CloudNativeCon

Europe 2026

- Unlike some services - who claim to provide 0 CVE hardened secure images and suddenly vanish or go behind a paywall
- There is a single oneline cmd you can use with harbor-cli to find and fix vulnerable images in your supply chain
- **REACH OUT TO BOOTH** - to find out.
