CANVA: YOUR CREATIVE MAGIC WAND

Canva is an intuitive design platform used by educators worldwide. When enhanced with AI magic, it speeds up creativity and simplifies design—making professional graphics accessible to everyone.

THE MAGIC TOOLS

Transforming Ideas Into Reality

Canva AI's key features that bring your creative vision to life:

- Magic Write
- Background Remover
- Magic Edit
- Magic Resize
- AI Image Generation
- Video Editing
- Templates
- Collaboration Tools

MAGIC WRITE

1. Open your Canva project and click on a text box.
2. Click the Magic Write button in the text toolbar on left.
3. Type your prompt (e.g., "Create an engaging lesson intro").
4. Press Enter and review AI suggestions.
5. Edit and insert into your design.
6. Explore the other options when you click the Magic Pencil. (shortcut /)

BACKGROUND REMOVER

1. Select the image on your Canva canvas.
2. Click "Edit Image" in the top toolbar.
3. Choose "Background Remover" from the options.
4. Wait for AI to erase the background automatically.
5. Use erase/restore brushes for fine-tuning.

Canva

MAGIC EDIT

Transform Images Creatively

1. Select the image you want to edit.
2. Click "Edit Image" and find "Magic Edit" in the sidebar.
3. Enter a text prompt describing the edit (e.g., "Add a wizard hat").
4. Click "Apply" and let Canva AI transform your image!
5. Adjust or undo changes as desired.

MAGIC RESIZE

Adapt your designs instantly for any format! Open your design, click Resize, choose the new dimensions, and Copy & Resize. Review and tweak as needed.

AI IMAGE GENERATION

Transform your text prompts into stunning visuals instantly. Create magical forest scenes, whimsical characters, and beautiful backgrounds for your lessons. This can be done from Canva AI or in the elements tab.

VIDEO EDITING MAGIC

Create enchanting videos with Canva's powerful magic tools. Upload your clips, trim unwanted parts, add filters, and use Magic Transitions for smooth flow. Preview and export your polished masterpiece!

TEMPLATES – DESIGN MAGIC MADE EASY

1. Search for education or presentation templates on the Canva homepage.
2. Select a template you like and click "Use this template" to open in the editor.
3. Replace placeholder text and images with your own content.
4. Customize colors, fonts, and layouts with AI smart suggestions.

COLLABORATION TOOLS

Co-Create with Ease:
Click Share, set
permissions, use real-
time commenting, and
work together from
any device. Connect
with colleagues and
students seamlessly!
