Scan the QR Code for P@T Events

The banner features a dark blue top section with white geometric patterns, a brown middle section with white text, and a bottom section with green geometric patterns. A QR code is centered in the middle section.

SUMMER
STAFF PICKS

Put down your textbooks and relax
with some summer recommendations
from our Georgia Tech Staff!

The banner has a light orange background with a rainbow stripe in the top left, a sun with sunglasses in the top right, and a beach scene with a beach ball, waves, and a starfish at the bottom. The text is in a bold, blue, sans-serif font.

EXPLORE NEW WORLDS
THIS FEBRUARY WITH
THESE SCI-FI AND FANTASY
READS WRITTEN BY BLACK
AUTHORS

The banner has a purple background with white line art of a planet with rings, stars, and a person holding a sword. The text is in a white, serif font.

3. Use Your Connections

Partner with organizations in your area!

Reach out to other staff members at the library!

Engage with your patrons!

Bonus: Have Fun!

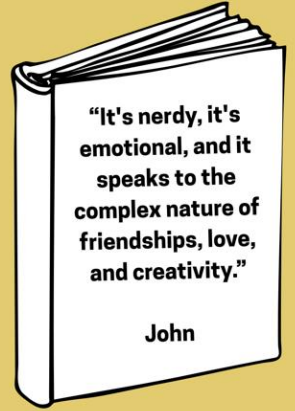

"Long before Harry Potter, I discovered the Young Wizards series at the Scholastic Book Fair and immediately fell in love. The stories are full of adventure, warm humor, and strong character growth. You learn about the hidden world of magic alongside the protagonists, and this layered worldbuilding extends throughout the series. The series has since grown to eleven books, and if you like young adult magic-and-action, you'll love these books. For more, check out the feline wizards spin-off series, starting with The Book of Night with Moon by the same author."

"A fascinating history and explanation of musical tuning systems, including details of ones that Partch invented and used."

Genesis of a Music
Dr. Jeremy Muller
Lecturer

A super cute best friends turned enemies to lovers romance! Read if you believe Big Foot is real and binge watch shows like Man vs Wild.

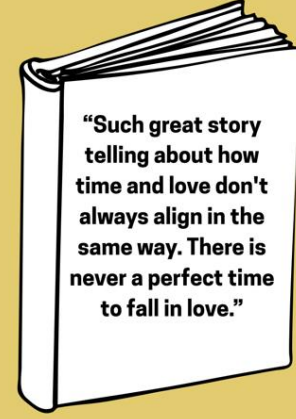

"It's nerdy, it's emotional, and it speaks to the complex nature of friendships, love, and creativity."

John

"I love technology and its potential to positively transform the human condition. This book offers a clear synthesis of the power and promise of the next wave of innovations beyond artificial intelligence."

"Such great story telling about how time and love don't always align in the same way. There is never a perfect time to fall in love."

"Very believable novel about the life of an artificial intelligence by my favorite author."

Klara and the Sun
Melinda McDaniel
Senior Lecturer
