

Buttons on a Shirt a Counting Game

Level: Elementary

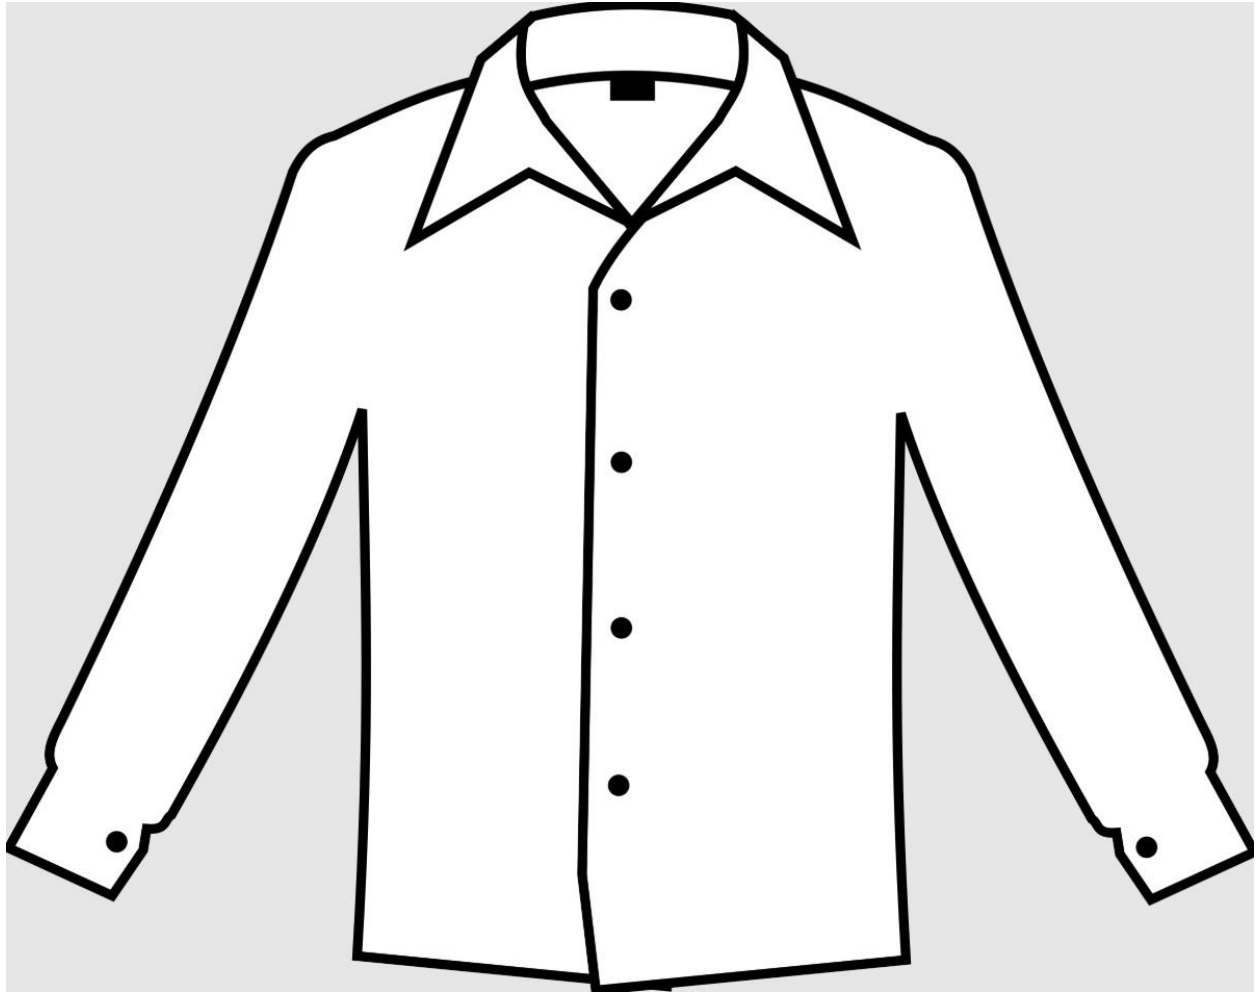

Skills: Counting, Number ID, Comparing

Materials: Dice or Playing cards, buttons, Paper Shirt

Goal: to have students count and compare the difference in an amount of buttons

Getting Started: Players will be in teams of two. Each team will roll or turn over two cards for a number. Teams will then count and place their buttons on a shirt. Have students draw to represent how they counted. Next, teams will then talk about how they chose to count. After that, teams will compare their numbers. The team with the greatest or least number of buttons will win.

Tens	Ones

I counted _____ buttons.

My friend counted _____ buttons.

_____ is greater than _____

_____ is less than _____
