

Next Up in Postsecondary Transition: We've Got You Covered!

Utah Rural Schools Conference
July 10, 2025

Learning Intentions

By the end of this session, you will have

- gained knowledge about the available resources in postsecondary transition;
- learned how to navigate the Transition Elevated Website;
- Identified at least one resource that you can apply in your setting.

Launching the Website

The Utah Transition Elevated website was developed with these collaborative efforts:

The Partners in the Statewide Collaborative for Improving Postsecondary Transition Outcomes for Students with Disabilities (STC).

The Utah Parent Center (UPC), providing support through the housing the site on the UPC server and by providing technical support through a UPC contracted website manager.

Website Walkthrough-Let's do this!

Utah Postsecondary Transition Padlets

A repository of links to Padlets on postsecondary transition in Utah

COMPLIANCE

Resources for compliance in postsecondary transition plans, post school outcomes, dropout and graduation rates for students with disabilities.

EFFECTIVE PRACTICE

Resources, tools and strategies for effective practice in postsecondary transition planning.

COLLABORATION

Everything you want to know about postsecondary transition team collaboration, interagency collaboration, and collaboration within your school, district and community to improve outcomes for students with disabilities.

ASSESSMENTS

All things about postsecondary transition assessments: where to find them, how to use them, who to involve in conducting them and strategies for how to know what to even assess with students with disabilities.

PROFESSIONAL LEARNING

Information on all the professional learning opportunities that exist to improve practices in postsecondary transition planning.

Covers all postsecondary transition Padlet topics

So many resources!

Our challenge for you – Choose one resource that captured your attention that you can potentially use in your setting.

Share that resource with a partner and how you will use it.
