Normally, at this point, you could click “Submit Microcredential for Review.” However, doing so will put the microcredential in your cart for payment. Instead, when you are using the voucher, you should click “Back to Microcredential Detail” in the top left corner of the screen.

If you already put the microcredential in your cart, press the red X to back it out of your cart. You will not lose any information.

When the screen refreshes, you will see the blue present button marked with “redeem credit” as pictured below. Pressing that button will send your microcredential to the reviewer without paying the \$20 fee.
